**Subject: Application for a 4-6 month Internship in the IT Department**

Dear Hiring Manager,

I am writing to express my interest in an internship opportunity within the IT department at the NFC Bank SA. Currently, I am a fourth-year Software Engineering student at the Institut Universitaire Saint Jean du Cameroon (IUSJC) and am required to complete a 4-6 month internship beginning in June to fulfill my degree requirements and gain practical industry experience.

I am particularly drawn to NFC Bank SA for its solid reputation in providing innovative financial solutions and maintaining a high standard of service across Cameroon. Your commitment to operational excellence and modernization in banking aligns with my professional interests in IT. As a future software engineer with a strong foundation in Java, Spring Boot, AngularJS, and SQL, I am eager to contribute to and learn from your team's projects in digital transformation, cybersecurity, and IT infrastructure.

In addition to my academic background, I hold certifications in AWS Practitioner, Scrum Fundamentals, and Spring Boot, which have prepared me to work effectively in fast-paced, collaborative environments. I am confident that my skills, combined with my enthusiasm for technology and innovation, would allow me to contribute meaningfully to NFC Bank's IT initiatives.

I have attached my CV for your review and am available at your convenience to discuss how my background and skills align with NFC Bank's goals. Thank you very much for considering my application.

Yours sincerely,

**Abel TEGUIA**
